OPENING CHAPTER

Getting There

That morning, we gathered early with excited hearts.

On the way to Alor Gajah, buses stopped at Machap for prayers and breakfast, some cars stopped there and some stopped at R&R Pagoh for breakfast. About an hour and a half from pagoh, the A'Famosa sign was finally visible.

FIRST SECONDS

Arrival at A'Famosa

Upon arrival, we were greeted by rows of palm trees and refreshing fresh air.

All workers and families rushed to the registration site, some were busy taking pictures. Some get together and discuss — where do you want to start first? The real fun has just begun.

Plunge into the Fun

The water splashed, screams echoed — we captivated the highest slides, drifted leisurely in the Lazy River and bathed in the waves in the Wave Pool. This is where all the fatigue of the journey continues to disappear with the current.

The safari truck took us up close with the Tigers and Lions down Monkey Island and the Crocodile Kingdom tunnels, we were glued to the wonders of the animal world so close.

"Each face has its own story, some are stunned, some are laughing. Between awe and laughter, that's where our best memories come from."

MEANINGFUL MOMENTS

Rest & Relax Together

Despite all the fun, the most meaningful moment was when we sat together.

Sharing food, telling stories about the most formidable sliding challenges, and laughing to stomach pain. This is where the real memories are formed — not on the rides, but on the togetherness.
