REGISTRATION

Dinner commenced at 6:00pm with a warm welcome to all guests, followed by a registration process to ensure a smooth start to the evening. As a token of appreciation, each employee received a door gift voucher upon arrival. Additionally, everyone was assigned a lucky draw number, providing an exciting opportunity to win special prizes throughout the night. This event promised to be a delightful evening of camaraderie and celebration, with surprises and entertainment that made it memorable for all attendees.

OPENING SPEECH

“Driving safely is very important for everyone. I think the traffic and road conditions in Malaysia are not good. Even if you follow traffic rules, sometimes other people do not. So, **we need to stay alert and drive more safely.**

In order to maintain our normal lives, please pay more attention to Safety and Health.”

5S Award by Department

Alpha Industries has promoted 5S activity to all our employees for creating a more organized and safer workspace by Sort, Straighten, Shine, Standardize, and Sustain.

For the year 2024, a weekly 5S auditing activity that involved cross-departmental inspection was carried out. The management wishes to award prizes to the departments that have made a major improvement and impact while also following the established criteria, such as achieving the highest 5S collection points and being able to sustain continuous improvement. The award winners are determined by Safety & Health Team, with the higher point earned serving as the determining factor.

Knowledge Sharing – The aim is to foster a Kaizen Mindset among technical staffs including engineers, supervisors & technician at Alpha Industries Sdn Bhd. This knowledge sharing initiative is facilitated through on-site Gemba, weekly meetings, two-way communication during sharing sessions and performance evaluations. An individual score point was awarded for putting in extra effort to complete the project study, despite handling night shifts and an increased workload, particularly for a position lower than engineer level

5S PROJECT STUDY AWARD

The project study included automation with the goal of promoting and implementing good 5S in the identified area while enhancing leadership skills through group activities. The desired outcomes of this initiative are the successful application of effective 5S practices in the machine area and the demonstration of strong leadership by the team leader.

MOHD FADZIL**

ZAADI BIN ISMAIL

Best Team Members are those who consistently attend meetings, regularly update the 5S progress in the WhatsApp group, and continuously contribute ideas to improve 5S in the machine area.

Special Reward On High Creativity of Knowledge Sharing and 5S Project Study

Contributed ideas to automate the current operational process, successfully implementing them in the machine area. This led to significant improvements in 5S practices.

A coach guides and supports during a project study by helping improve skills, stay focused, and solve problems. They build confidence and ensure the project stays on track for success.
